EDUCATION

Savitribai Phule Pune University (SPPU), Pune — Pune, Maharashtra
BBA(CA) — **Aug 22 - Jul 2025**
GSM College, Pune — Pune, Maharashtra
Higher Secondary Certificate (HSC) — **Aug 20 - Jul 2022**

SKILLS SUMMARY

- **Languages**: Python, SQL, HTML
- **Frameworks**: Pandas, NumPy, Seaborn, Matplotlib
- **Tools**: Power BI, Excel, Microsoft Word, Tableau, MySQL, SQLite
- **Platforms**: PyCharm, Jupyter Notebook, Visual Studio Code, IntelliJ IDE
- **Soft Skills**: Rapport Building, Strong Stakeholder management, People Management, Excellent communication

WORK EXPERIENCE

MIS Executive | Advance 2 Rise — **Aug 24 - May 2025**

- Conducted B2B data research and generated structured business reports, improving data-driven decision-making by **20%+**.
- Created and maintained **daily & monthly MIS reports**, handling datasets of **5,000+ records**, ensuring high accuracy and consistency.
- Cleaned, validated, and transformed large datasets, reducing data errors by **30%** and improving reporting reliability.
- Maintained and updated databases while tracking key performance metrics, enhancing operational efficiency by **15%**.

Sales Executive | Aurique – Diamond Brand — **Jun 25 - Present**

- Managed customer interactions and identified purchasing preferences, contributing to improved sales conversions and customer satisfaction.
- Analyzed customer buying behavior to identify high-demand products, helping optimize inventory and sales strategy.
- Created **sales dashboards and product performance reports in Excel**, tracking top-selling items and customer trends.
- Analyzed product-wise sales data to identify **best-performing categories**, supporting business decisions and increasing sales efficiency by **15–20%**.

PROJECTS

Community Health Fund Allocation Analysis || LINK — **Dec 2025**

- Analyzed healthcare funding data across regions to identify allocation patterns.
- Developed scoring models and comparison metrics to evaluate fund distribution.
- Identified high-need regions and recommended optimized allocation strategies.
- Provided insights to support better decision-making and resource utilization.
- Built an interactive dashboard for quick, data-driven health analysis.

Uber Ride Analytics Dashboard | LINK — **Feb 2026**

- Analyzed Uber ride dataset of 6974+ customers using Python (Pandas, NumPy) to identify peak demand hours and ride patterns.
- Performed data cleaning and EDA to uncover trends in ride frequency and customer usage.
- Visualized insights to highlight high-demand time slots and improve ride allocation planning.
- Derived actionable insights to support better operational and business decisions.

Bank Customer Attrition Analysis | LINK — **March 2026**

- Analyzed bank customer dataset of 9,000+ records to identify key factors contributing to customer churn.
- Performed data cleaning and EDA to uncover patterns based on credit score, balance, and tenure.
- Built visualizations to compare churn vs non-churn customers and identify high-risk segments.
- Generated insights to help improve customer retention strategies and reduce churn rate

CERTIFICATES

SQL & Microsoft Excel – Crio.Do — **Dec 2025**

- Developed hands-on skills in data cleaning, analysis, and visualization using SQL, spreadsheets, Tableau, and R.
- Applied the end-to-end data analysis process through case studies and a capstone project to support data-driven decisions.

Python for Data Analysis – Crio.Do — **Feb 2026**

- Learned data analysis using Python libraries like Pandas and NumPy.
- Worked on data preprocessing, EDA, and generating insights.
